**Job Title:** Water Distribution Service Worker I/ Wastewater Plant Maintenance Worker I

**Scope of Position:** This job classification is general in nature. It is intended to provide on-the-job training for advancement to the District grade level II.

**Job Description:** To perform duties under the supervision of the Utility Department Supervisor.

**Duties:** Under general supervision operate, test, and repair filters, pumps and valves in compliance with District policy. Conduct weed abatement as necessary at District reservoirs, pump stations, and waste water plant. Conduct semi-skilled tasks as required to accommodate general water and wastewater duties including, but not limited to, the District's sewer grid and wastewater lift stations. Obtain certifications deemed necessary by the District.

**Job Title:** Water Distribution Service Worker II/ Wastewater Plant Maintenance Worker II

**Job Description:** To perform duties under the supervision of the Utility Department Supervisor.

**Duties:** Control District water supply and distribute to appropriate reservoirs. Inspect, test, and repair mechanical defects in all sizes and types of water meters, pressure regulators, backflow prevention devices, pumps and distribution system pipelines. Keep accurate records of stock materials, tool inventories, and meter reading calculations. Handle customer complaints as necessary. Process District wastewater flow; including maintenance of sewer distribution grid and flood control basins. Make mathematical calculations for (and keep daily logs on) effluent flow totals and lab analyses. Also, perform semi-skilled to skilled maintenance duties as required (i.e., operate District backhoe, welder).
